Title:

Egyptians' Last Puzzles

Game Genre:

Story-Driven VR Multiplayer Escape Room

Game Platform:

PC

Target Audience:

14-25

Rating: 7+

Game Summary: The Egyptians left one last temple, lost in the desert dunes, for explorers to discover. Your team of explorers stumbles into one of the main rooms after a giant sinkhole collapses in the desert. You must find a way out of these tricky puzzle rooms in a short time, lest the whole temple might collapse on you, after the reopening of this sacred space. Watch out for traps, timed challenges, downhill slopes, and of course, the outcome of your own actions.

Game Outline: The player has been dropped into a temple filled with puzzle rooms with their squad and they have to escape the entire temple, through an unknown path, before the entire temple collapses. They can participate in puzzles, challenges, time-limit events, mind-challenging riddles, and many more in order to obtain the gems for the temple rooms to open. At the end, they must present a key found in the temple to open the final door and escape the temple.

USPs:

- Desert Temple-themed puzzles.
- Escape Room filled with different types of puzzles.
- Multiplayer Fun experience in Custom Lobbies.
- Voice chat feature and altering/transformative effects to it.
